Meetings

General - Last Thursday of the Month (except December)

Workshops - Every Thursday

Changes will be notified on our FaceBook page and website.

Next Meeting : 25 April

I trust everyone is recovering from what felt like one of the best Warbirds over Wanaka line-up's ever. Thanks to John H and Jeff M we have some excellent photos later in this issue.

This month we have two competitions :

- The April instalment of the Extreme Hobbies Modeller of the Year competition and
- The Jim Marks ANZAC Competition.

Note : there will be two separate votes. The normal one vote per member for the Extreme Hobbies competition. The second round of votes in the Jim Marks Competition will have member voting for the top three models on the table. Three points will be allocat-

Upcoming....

IPMS Nationals

2024

HERE WE GO! 2024 IPMS National Competition PRE-REGISTRATIONS now open. Just fill out the basic form and submit. Things to note...

Pre-registration is required to enter the competition. Once you have submitted the form you will duly be emailed an exclusive competitor code. This code is to be used on each of your model entry forms (this should save you repeating your details). Entry forms will be available at a later date.

Pre-registration is needed for us, your host, to gauge numbers for the event and competition. The information you provide should be as accurate as you can genuinely predict at this time. We know that the modelling gods don't always smile upon us, and that circumstances can change in a brushstroke, so you will not be held strictly to the numbers and classes you indicate. Don't stress, best guesses will do.

Pre-registrations will be open for a limited time only*. Please don't leave it too late to submit your form. In the meantime, keep modelling!

- forms can be found on the website of IPMS Southland and the Facebook page IPMS NZ Nationals 2024.

Note - set up is Friday 11 October noon to 7pm. With late set up on Saturday morning.

- Entry fees are \$5 per model up to a maximum total of \$20 (four entries of more).

AIR FORCE MUSEUM
of New Zealand

Aircraft at the Museum

Lockheed P-3K2 Orion

NZ 4203

Over the extended weekend - 18 April to 21 April the RNZAF Air Force Museum's latest acquisition and in background storage, was opened to the general public for close-up inspection of the exterior of the aircraft. Due to the restrictions of the available space the tail and very rear section of the aircraft have been removed.

The Museum is currently working on plans for a new hangar to house NZ 4203 and the soon to be acquired C-130 Hercules. Fund raising has commenced and can be support by donations to the museum and purchasing museum merchandise.
